Tensiofix D100 green

This product is a blend which composition is based on components with positive ecological profile.

The ingredients have been selected because they have been described in the literature as having a positive effect toward Glyphosate efficacy:

- improvement of translocation
- wetting/spreading improvement
- extent the liquid phase state on the leaves (drying delay).

The following formulation has been tested for its physical stability:

Glyphosate IPA (44,46%)	: 80,97 g
Tfix D100 green	: 12,25 g
Distilled water	: <u>21,082 g</u>
	100 ml

This formulation (clear liquid) is stable 15 days at 54°C and -5°C.

pH (1% dist water) = 4,96

Foam (CIPAC MT 47,1) :

- T0 = 45 ml
- T1'=40 ml
- T5'=35 ml
